iléktró™

twelve fifty
electric fire

Let the tech do the talking with the iléktró 1250.

Beauty, style and luxury are just some of the features offered by iléktró.

With an iléktró fireplace, practicality is equally important.

All models in our range utilise adaptive heating technology and include an RF touchpad remote control and a 7-day programmable timer with room thermostat, enabling you to maintain the perfect temperature in your home with ease.

Features

- Simple and hassle-free installation - no flue required
- DuoFlame Multi Flame colour technology with 7 settings
- Adaptive heating technology - 0-2000W output
- Patented even heat distribution technology built into all models
- Energy-saving LED Multi-Flame technology
- Use of flame effect with or without heat
- Full screen display with realistic flame patterns
- Underbed mood lighting with 7 settings

- Choose from 28 Aspect and Landscape models
- Front, left hand, right hand and bay orientated options for all models
- All four orientation options professionally packed into one box
- Clear vision, low reflection front glass
- Unique side-glass reflection
- RF touchpad remote control with colour screen display
- 7-day programmable timer with room thermostat
- 240V/10A standard electric plug fitting
- 2-year warranty on all models
