

// NEW FOREST 1900 ELECTRIC FIRE

Information Sheet

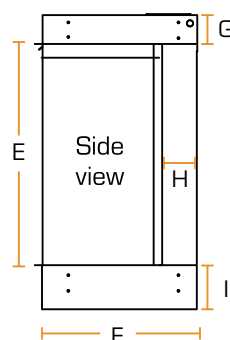

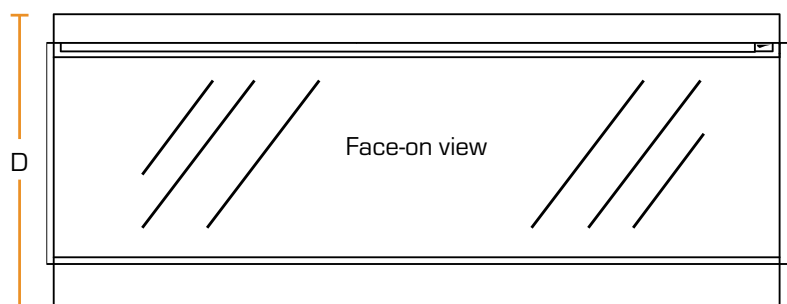

// DIMENSIONS

A	1900.0mm
B	311.0mm
C	1925.0mm
D	565.0mm
E	424.0mm

F	300.0mm
G	55.5mm
H	67.0mm
I	83.5mm

// TECHNICAL

PRODUCT SPECS

Supply voltage:	220-240V AC
Rating power:	50Hz 1260-1500W
Fuse rating:	13 Amp
Heating elements:	1500W
Lighting:	LED

PRODUCT FEATURES

- Full thermostatic control
- Timer control options
- Down lighting
- Remote control
- Three fuel bed options:
 - Forest View, Slate View, Crystal View
- One, Two or Three-sided installation
- Three different fuel bed colours
- 3-Pin plugged included

// NEW FOREST 1900 ELECTRIC FIRE

Information Sheet – Installation Options

// THREE-SIDED

A three-sided install offers both the left and right hand sides open within a constructed chimney breast. We have shown the fire (left) with a raised slate hearth to compliment the fire. This design offers a modern approach on a classic arrangement.

// TWO-SIDED

Cornered is the option to have only one side covered up and installed into a corner section of a room where this style would suit. This can be done with either the left or right side of the fire to be covered — creating a more dramatic room composition.

// FULLY RECESSED

Fully Recessed creates a more prominent face-on view both sides can be covered by fully-recessing the fire into the chimney breast. This installation method adds perceived width to any room.
